Great service, rung up on a Saturday evening due to our front door lock being broke, was out and sorted it within the hour. Didn't catch the guys name but really nice fella too. Defiantly recommend.

Locksmith came and got my broken key out of my lock after I had snapped it. The fella seems nice and done to job to a high standard.

Fast, efficient and fairly priced service. Alan who attended, upgraded my locks and offered lots of well informed lock advice. Polite & Knowledgeable throughout, very happy to answer my questions. I'm happy to highly recommend.

Great service. Called in the afternoon and came out the same night. No call out charge either which is great. Good advice given and very helpful. Thanks

I managed to lock my keys in my car when I got home from work so rang round a few Locksmiths (most did not answer or were very expensive)

Locked my car keys in my Peugeot 207 and the locksmith came out straight away and picked the lock on the car to retrieve the keys.

I am happy with the service as there was no damage to my car and he was cheaper than other locksmiths in Warrington.

I eventually come across LW Locksmiths Warrington and the man came out very quickly as he was local.

He managed to pick the lock on my car and open the door for me to get my keys back.

The Locksmith was very polite and done a brilliant job. He was also half the price than what I was being quoted by other Locksmiths in Warrington.

Really great service. Lock on side door failed on a Sunday morning, called LW Locksmiths who were there within 2 hours. Didn't have the part so fitted a temporary lock so that we were secure overnight. Called back the following day once the part had arrived and fitted, zero chasing up required from us. Very trustworthy, left to them to work in the house unattended whilst i was on calls. Highly recommended.

Locked the keys in the boot of my car and rang round a lot of Locksmiths in Warrington they all said they could not get in or quoted high prices. I rang LW Locksmiths Warrington and the came out straight away and picked the lock on the car with no damage and they were also a lot cheaper than the other Locksmiths that I rang in Warrington.
